WORKING

*C*

reata nel 1993, la FE.BA. S.r.l. si è già imposta come una delle maggiori produttrici di ferro battuto; la clientela è vasta e soddisfatta sia in Italia che all'estero, nonostante la recente fondazione. Dal primo catalogo, edito nel 1993 e contenente circa 680 articoli, la gamma si è ampliata sino a comprenderne circa 6.000, illustrati nel presente volume di 656 pagine (disponibile anche in CD), con una linea completa di prodotti decorativi in ferro battuto, come elementi per cancelli, porte, balconi, ringhiere per scale, una nuova serie di articoli d'arredamento per la casa ed il giardino; numerosi esempi di articoli assemblati vengono proposti in un catalogo aggiuntivo. È, inoltre, disponibile il nuovo programma FEBARTDESIGN®, per la composizione rapida di cancelli, recinzioni, inferriate, balconi, scale a mezzo computer, utilizzando l'ampia scelta disponibile. Su richiesta, inoltre, si possono eseguire lavorazioni personalizzate. In tre moderni stabilimenti di 10.000 mq. totali, situati a Malo (Vicenza), l'Azienda offre un servizio rapido, dovuto principalmente ai costanti investimenti in macchinari innovativi. Una costante ricerca che si ispira all'antica tradizione, ben presente in tutti i centri storici di ogni città italiana, permette di unire finiture degne degli antichi maestri del ferro, il tutto senza venir meno al loro tocco artistico, grazie a produzioni eseguite da artigiani specializzati.

*E*

Established in 1993, FE.BA. S.r.l. has already established itself as one of leading manufacturers of wrought iron products for use within the building industry. FE.BA. S.r.l. has many and satisfied Italian and foreign customers.

From first 1993 catalogue with 680 items, FE.BA. S.r.l. has extended until 6.000, illustrated in this one of 656 pages (available also on CD). FE.BA. S.r.l. offers a wide range of decorative iron products, including components for assembling gates, doors, balconies and stair banisters; several examples of assembled items are available in another catalogue. FEBARTDESIGN®, a computer-aided quick system to compose gates, railings, stair banisters, etc., is available on CD. FE.BA. S.r.l. also offers a service for those customers that require products to be manufactured to their own design.

Working in three modern 10,000 sq. m plants, with a large workforce in Malo, a village close to Vicenza, 100 km far from Venice, the Company is able to offer short delivery times together with competitive prices, due mainly to the Company's investment in new and innovative machinery.

FE.BA. S.r.l. gets inspiration from the tradition of old ironsmith, joining a touch of art to modern artisan working.

ARTICOLI • IN • ALLUMINIO  
ALUMINIUM • ITEMS

*U*na nuova linea di articoli, scelti tra quelli dal design più richiesto ed apprezzato dalla clientela, è stata realizzata in alluminio, materiale noto per la quasi totale assenza di corrosione e la leggerezza.

Ideali per l'installazione in località costiere, dove la salsedine favorisce l'ossidazione delle superfici, garantiscono una buona tenuta nel tempo, unita al tocco artistico che valorizza ogni stile di costruzione.

*A* new range of items has been manufactured in aluminium, a well-known and appreciated material, that can grant lack of corrosion and lightness.

They are ideal for sea places, where rust can attack steel surfaces. The touch of art of our aluminium items increases the value of every building style.

Questo programma permette di comporre progetti di cancelli, recinzioni, inferriate e scale con un'ampia scelta degli articoli illustrati nel Catalogo 01/2011: un sistema facile ed intuitivo per ottenere rapidamente modelli assemblati e corredati di tutti gli accessori, in modo da offrire un prodotto finito in ogni dettaglio. Automaticamente verrà, inoltre, fornita la lista completa degli articoli occorrenti, per la gestione di preventivi ed ordini, con relative descrizioni, prezzi e pesi.

*This program allows to compose drawings of gates, fences, gratings and staircases with a large range of our Catalogue 01/2011 items: an easy-to-use system to get quickly assembled models with all their accessories, to offer a completely finished product. A complete list of relevant items will be automatically joined to every drawing, for quotations and orders, with descriptions, prices and weights.*

Art. 1000

#### REQUISITI DI SISTEMA

Per garantire il corretto funzionamento di Feb@rtDesign 2008 è necessario che il sistema soddisfi i seguenti requisiti hardware e software: Windows 2000, Windows XP Professional, Windows Vista, Windows 7.

Windows Vista Home Basic e Windows 7 Home non sono supportati.

AutoCAD dalla versione 2000 alla versione 2008.

Microsoft Access dalla versione 2000 alla versione 2007 (oppure Microsoft Office Professional dalla versione 2000 alla versione 2007)

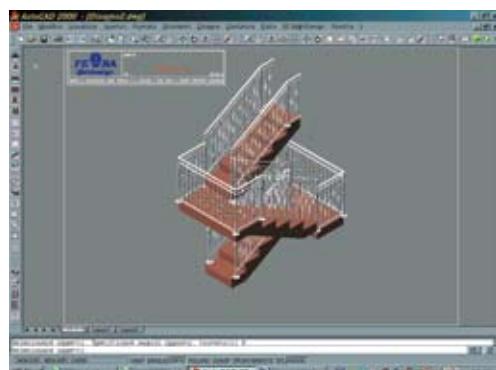

Processore Pentium II o superiore

256 Mb di RAM - 1000 Mb di spazio su hard disk

Sistema di puntamento (mouse)

Sistema di Stampa

Impostazioni dello schermo: risoluzione 1024x768 pixel o superiore con caratteri piccoli. Programma protetto da chiave hardware su porta parallela o USB.

#### SYSTEM'S REQUIREMENTS

*To guarantee the right working of Feb@rtDesign 2008 the system must satisfy the following hardware and software requirements:*

*Windows 2000, Windows XP Professional, Windows Vista, Windows 7.*

*Windows Vista Home Basic and Windows 7 Home are not supported.*

*AutoCAD from 2000 to 2008*

*Microsoft Access from 2000 to 2007 (or Microsoft Office Professional from 2000 to 2007)*

*Pentium II processor or superior*

*256 Mb of RAM - 1000 Mb of memory space in hard disk*

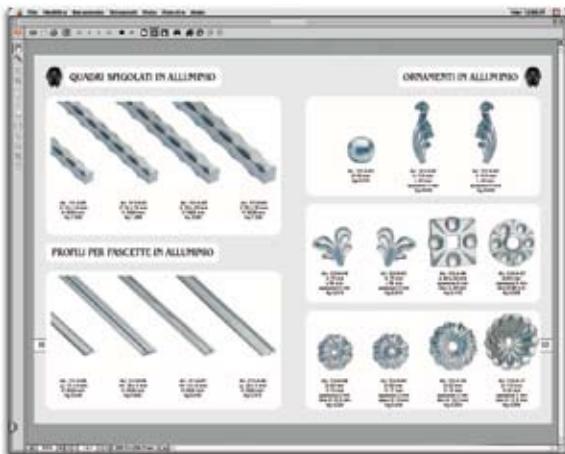

*Pointing device (mouse)*

*Print device*

*Screen Setting: resolution 1024x768 pixel or more using small characters. Program protected by a hardware key on parallel port or USB.*
